I. Major Events, November-December  
(Two-Month Calendar)

Major events of the current period and those expected during the next period are listed in the following:

Major Events  
for Current Period

1. November 1 - 8 : A series of meetings were held at KEDI, the Kyeonggi Province Education Board and the Seongju County Education Office for two days each to review a general model of Saemaoul Education drafted by KEDI researchers. Local supervisors and teachers in charge of Saemaoul Education attended the meetings.
2. November 3 - 10 : Four additional ITV programs were produced for the third small-scale tryout in mathematics, Korean language, music and science.
3. November 4 - 9 : Questionnaires on teachers' views of their tasks and roles were prepared and distributed.
4. November 4 - 9 : Items in student-attitude scales were analyzed.

5. November 4 - 11 : The results of a field tryout by subject matter were reviewed for discussion in a series of conferences held at ten cooperative schools.
6. November 4 - 23 : Statistical analysis of data on the National Assessment of Academic Achievement was completed, and the results of the analysis (individual score lists and norms) were distributed to the sample schools.
7. November 4 - 30 : A research team in each subject matter visited Eonju Primary and Hannam Primary schools to make classroom observations in connection with the third small-scale tryout of KEDI's new instructional system.
8. November 5 : Leaders of each research team held a conference to evaluate the research activities accomplished in October and to review those to be done in November.
9. November 6 : A conference with a number of teachers from the two demonstration schools was held to evaluate the results accomplished during the initial period of the third small-scale tryout.

10. November 8 - 9 : KEDI sponsored an International Meeting on the Korean Elementary-Middle School Project for two days at the King Sejong Hotel in Seoul with the participation of many distinguished scholars, both from Korea and abroad including Dr. Yu, Kee Chun, Minister of Education who delivered a welcoming address at the opening ceremony. Other top MOE officials and officials from both USAID/K and AID, Washington, were also in attendance. This meeting was to review and discuss improvements in the project which KEDI has been carrying out for the past two years. The program of this meeting is provided in Appendix I.
11. November 11 - 23 : Summative evaluation of each subject matter for the third small-scale tryout was conducted at two demonstration schools and two control schools.
12. November 17 - 30 : Educational radio programs for winter vacation were planned in addition to 363 programs which were produced and broadcasted during the month of November.

13. November 18 : A microwave tower for the studio/transmitter link was erected in an area near the studio construction site.
14. November 18 - 23 : Various data relating to the third small-scale tryout were collected from two demonstration schools and two control schools.
15. November 18 - 23 : A conference was held to finalize a system evaluation model.
16. November 26 - 30 : In connection with works for middle school curriculum specifications, unit designs of English and mathematics, and problems in writing the reports were reviewed for discussion.
17. November 30 : The third small-scale tryout of KEDI's new instructional system was completed.
18. November 30 : Designs of electric facilities in the studios (stage lighting, equipment, power capacity etc.) were completed.

#### Visitors to KEDI

1. November 14 : Mr. Edward J. Palmar, Educational Consultant, Academy for Education Development, Inc.,

Seoul had a discussion on the educational development project.

2. November 14 - 15 : An Indonesian observation team in educational technology had discussions on educational radio and TV programming and related research projects; application of audio-visual appliance in educational purposes and development of audio-visual equipment, in addition to briefing offered to them on the present situation of education in Korea and KEDI's activities as a whole.

The following lists the members of the Indonesian team:

1. Mr. Yusufhadi Miarso  
Deputy Chairman, Office of Educational Development, MOE
2. Mr. Sujas Priyahutama  
Director, Academy for Community Education and Director General of Sports and Youth Affair, MOE
3. Mr. Djaslan  
Head of Planning and Programming, National Television, Ministry of Information
4. Dr. Setipadi  
Secretary, Office of Educational department, MOE

3. November 21 : From U.S. Coordinating Office-KAIS,  
University of Stanford, Dr. Fredick E.  
Terman, Director, and Prof. W. Grant  
Ireson, Deputy Director observed the pro-  
grams and activities of KEDI.

Proposed Events in December

1. In connection with the third small-scale tryout of each subject matter, data will be collected for processing and a final evaluation conference will be held.
2. A report on the National Assessment of Academic Achievement will be completed.
3. In connection with the construction of KEDI's office and studio buildings, a contract has been further postponed until December for the installation of interior electric power lines and pipes through which electric cables are to be run

#### IV. Overseas Training and Coordination

This section describes the status of overseas training of KEDI's research and technical staff and coordination activities under the technical support contract between MOE-FSU.

##### A. Overseas Training

###### 1. Long-Term Doctoral Program Training

Miss An Jin Yoo, Mr. Yoon Tai Kim, and Mr. Un Hyo Chang successfully completed all of their coursework for the fourth quarter (Summer, 1974) with grade averages of A at FSU on August 23, 1974. Also during the Summer Quarter, all three passed the qualifying examinations for admission to degree-seeking status in their respective doctoral programs. In addition, Mr. Kim successfully completed his written doctoral comprehensives in July.

Miss Yoo, Mr. Kim and Mr. Chang began their fifth quarter (Fall, 1974) on September 16, 1974, and their coursework for this quarter is as follows:

###### Miss An Jin Yoo

- 1) International and Development Education as Fields of Practice and Study
- 2) Project Management in Research and Development. Marketing, contract, budget, personnel, and performance considerations.
- 3) Dissertation
- 4) Preliminary Doctoral Examination

Mr. Yoon Tai Kim

- 1) Dissertation

Mr. Un Hyo Chang

- 1) Project Management in Research and Development. Marketing, contract, budget, personnel, and performance considerations.
- 2) Supervised Research
- 3) Dissertation
- 4) Preliminary Doctoral Examination

In addition to their coursework, Miss Yoo, Mr. Kim, and Mr. Chang will continue to participate in research, development, and training activities at CET to gain practical work-related experience.

2. Short-Term Training

Messrs. Jae Moon Park, Jong Jin Choi, Hark Bong Koo, and Byong Sun Kwak, who arrived at FSU on June 29, 1974, have completed the first two parts of their six-month training program.

Part I, "Systems Approach to Educational Technology," was conducted from July 1, to mid-August and during the first two weeks of September. In this part they received training in concepts and techniques for systematic design, development, implementation, and evaluation of instructional systems. In

addition, each participated in directed individual study and specifically selected and designed group seminars. All four trainees completed their Part I training activities with excellent performances. As part of their training, each of them designed, developed, and evaluated a short programmed instructional module.

Part II, "Observational Trips to Other Institutions," was conducted during the second half of August. Each of the trainees visited two or more institutions for observational training in his specialty area.

The four trainees began Part III of their training program, "Individualized Training in Specialty Area," on September 6. Their individualized programs consist of directed individual study and the auditing of formal coursework in the College of Education. The specialty area, and list of courses being audited by each of the four trainees are as follows:

Mr. Jae Moon Park

\* Instructional Systems Design and Development

- 1) Statistical Applications in Education: Non-parametric Methods. Consideration and application of topics in non-parametric statistics.
- 2) Advanced Topics in Educational Research. A systematic treatment of selected topics.
- 3) History and Theory of Educational Technology. Major

concepts of educational technology including definition, learning theory, and taxonomy; instructional design models and strategies; media characteristics and research.

- 4) Theories of Learning Relevant to Education. Designing and specifying the characteristics of one or more systems of instruction; making rationally organized descriptions of the theories, constructs, and subordinate hypotheses of major theorists (Skinner, Gagne, Ausubel, and Bruner).
- 5) Directed Individual Study. Special topics and learning experiences in the area of design and development of instruction.

Mr. Byong Sun Kwak

\* Educational Technology, Instructional Materials Design and Development.

- 1) Advanced Topics in Educational Research. A systematic treatment of selected topics.
- 2) Facilitation of Classroom Learning. An examination of human learning principles and their relationship to problems of classroom achievement.
- 3) History and Theory of Educational Technology. Major concepts of educational technology including definition, learning theory, and taxonomy; instructional design models and strategies; media characteristics and research.

- 4) Theories of Learning Relevant to Education. Designing and specifying the characteristics of one or more systems of instruction; making rationally organized descriptions of the theories, constructs, and subordinate hypotheses of major theorists (Skinner, Gagne, Ausubel and Bruner).
- 5) Directed Individual Study. Special topics and learning experiences in the areas of educational technology and instructional materials design and development.

Mr. Jong Jin Choi

\* School Management, Educational Administration

- 1) Educational Administration. Fundamental concepts of the administrative process; administrative organization; communication; decision making; leadership.
- 2) Modern Developments in Systems Theory. Basic concepts of systems and the systems approach within the context of organization and management theory, and for the analysis and design of management information systems.
- 3) Educational Systems Analysis. Background of cybernetics; general systems model; applications of system analysis to business, industry, government, and education; simulation of educational systems.
- 4) Directed Individual Study. Special topics and learning experiences in the areas of school management and

educational administration.

- 5) Introducation to the Economics of Education. The economic context of educational administration; measurement of educational output; productivity and efficiency.

Mr. Hark Bong Koo

\* Teacher Education

- 1) Basic Concepts in Curriculum Planning and Organization. The changing role of the school; sources for content and patterns of curriculum design; trends in subject areas; school-wide programs; instructional strategies.
- 2) Educational Systems Analysis. Background of cybernetics; general systems model; applications of system analysis to business, industry, government, and education; simulation of educational systems.
- 3) Directed Individual Study. Special topics and learning experiences in the area of design and development of teacher training programs.
- 4) Supervisory Theory. Survey of literature and research relevant to supervisory theory; emerging concepts and theories; use of models in refining supervisory theories; nature of the helping relationship.

In addition, Messrs. Park, Kwak, Choi, and Koo will attend a special weekly seminar conducted by Dr. Golfin at

CET to discuss current research and innovative trends in education. They will participate also in other activities at CET.

Mr. Jin Suk Oh arrived at FSU on September 4, 1974 to begin a threemonth specialized training program in instructional design for mathematics education. His program includes training in teaching methods and the system approach to design and development of instructional materials for mathematics education. He is making site visits to several public schools in Tallahassee and elsewhere in the U.S. to observe teaching methods and programmed instructional materials in use in the classroom. Finally, he is visiting several centers in the U.S. for exposure to innovative research and development activities in the teaching of mathematics. Mr. Oh will continue his training at FSU-CET until mid-November. During the latter half of November he will visit more research and development centers in the U.S. in conjunction with his schedule to arrive back in Seoul about December 3.

#### B. Overseas Coordination

No particular activities were scheduled for the current period.

## V. Procurement and Installation of Broadcasting Equipment

OSROK issued on November 21, Addendum No. 2 to its IFB No. AID/L-74156-PII relating to the procurement of broadcasting equipment. By this addendum, some changes have been effected in the technical specifications of the IFB, and the opening date of bids set for December 14, 1974, remains unchanged.

## VI. Problems

As the cement situation has not improved yet, there is an increasing difficulty in securing a constant supply of it.

## VII. Progress of Activities Listed on PERT Chart

The status of PERT progress made for the current period is shown on the following pages.

## Summary Statement on Progress

A steady progress of works on the E-M project has been made as per schedule of PERT events with a few events not being completed within the scheduled time period.

The main events accomplished during the current period are as follows:

- developed instruments to survey the present school evaluation programs, and selected schools to survey the evaluation programs;
- projected the student numbers for the educational development plan;
- printed instructional materials for the first and second semesters of third grade;
- completed the production of a number of the fourth and fifth ITV programs for the third small-scale tryout;
- collected data on system evaluation using the classroom observation instruments;
- analyzed and evaluated the poll data for the types of Saemaeul Education;
- conducted a seminar on the system evaluation;
- completed the third small-scale tryout of prototype instructional and management systems, as well as the writing of a research report on the plan for the improvement in teachers' in-service training programs;
- analyzed the results of the National Assessment of Academic Achievement;

- completed a preliminary study and prepared its final report with regard to the development of the instructional procedure model for the primary grade;
- completed a report on the system evaluation seminar.

In addition, civil engineering and building structure works for the studio construction progressed to 91% and 51% of completion respectively. As reported previously, the opening date of bids for the procurement of broadcasting equipment has been postponed to December 14, 1974.
